evaluation and assessment.

Primary Medical

Company Profile 2025

Who we are

Primary Medical

Your Partner in Workplace Health and Safety

Primary Medical is Malawi's leading occupational health and clinical care provider, specializing in keeping your workforce healthy, safe, and productive. We partner with organizations to manage all aspects of employee health, from pre-employment medical screenings to ongoing health monitoring and emergency response services. Our comprehensive approach helps companies reduce workplace health risks, ensure compliance with health and safety regulations, and maintain a healthy, productive workforce.

For businesses and organizations, we serve as your complete healthcare solution provider. We handle everything from setting up on-site medical facilities and conducting regular health assessments to managing workplace injuries and providing 24/7 emergency medical support. Our services are specifically designed to help organizations minimize health-related disruptions, reduce employee absenteeism, and ensure compliance with occupational health requirements - allowing you to focus on your core business operations.

Excellence in Occupational Health & Emergency Care Services

Pioneering Healthcare Excellence Since 2016

Primary Medical stands as Malawi's premier integrated occupational health and clinical care provider, delivering comprehensive healthcare solutions to businesses and individuals across the nation. As a leader in workplace health services and emergency response, we combine medical expertise with cutting-edge facilities to ensure optimal health outcomes for our clients.

Our Foundation

Established in 2016, Primary Medical has rapidly evolved to become the country's most trusted name in occupational health services. Our success stems from our unwavering commitment to excellence, our comprehensive understanding of workplace health dynamics, and our state-of-the-art medical facilities.

Excellence in Occupational Health & Emergency Care Services

Our Commitment

Dedication to Excellence

Our Core Values

Our values form the foundation of everything we do at Primary Medical. We pursue professional excellence through the delivery of superior healthcare services, constantly pushing boundaries through innovation and embracing advanced medical technologies. Reliability is at the heart of our operations, ensuring consistent, high-quality care for all our clients. We uphold the highest standards of integrity in all our dealings, maintaining strict ethical standards throughout our operations. Above all, our unwavering focus on customer needs and satisfaction drives every decision we make.

Our Vision

At Primary Medical, our vision embodies our commitment to healthcare excellence. We strive to maintain our position as the national leader in occupational health services while continuously pioneering innovations in clinical care delivery. Our ambition extends beyond Malawi's borders as we work to expand our reach across Africa, setting new standards in emergency medical response and comprehensive healthcare solutions.

Our Quality Commitment

Primary Medical maintains the highest standards of healthcare delivery through our comprehensive quality assurance program. We operate under full licensure from the Medical Council of Malawi and maintain registration with the Pharmacy, Medicines and Poisons Board. Our commitment to excellence is demonstrated through our adherence to international healthcare standards, ongoing staff training and development programs, and continuous quality improvement initiatives.
